## SUMMARY

Thorough and meticulous Full Stack web developer applying a mathematics background and strong technical skills towards building functional full-stack applications. Strategic problem-solver with the persistence and organization necessary to execute goals. Comfortable agile and data-driven situations. Passionate in continuing to learn and develop technical skills.

## TECHNICAL SKILLS

**Languages/Methodologies:** HTML, CSS, JavaScript, jQuery, Bootstrap, Foundations, Node.js, MySQL, Sequelize, eslint, path, Express.js, and Express-Handlebars, MongoDB, Webpack, and React.JS, ES6, MERN, AWS.

**Applications:** MySQL, Workbench, Git Bash, Visual Studio Code, Postman, Node.js, React Developer Tools.

## PROJECTS

**Simply Somm** | Repo: <https://tinyurl.com/y78nfr4c> | App: <https://tinyurl.com/SimplySomm>

- **Simply Somm** is an app that allows a user to pick a taste and an aroma that the user might like. A list is then created with drinks based on the user's choice in taste and aroma.
- Core responsibilities pertain to building the database models and the through tables to represent the relationships between the data. Was responsible for working on the CRUD routes for the app.
- Used HTML, CSS, JavaScript, Express, HandleBars, and Sequelize for the languages. Also used Node.js, Eslint, MySQL Workbench along with Postman for the completion of the app.

**D.M.M. Systems** | Repo: <https://tinyurl.com/yajjpagd> | Video: <https://tinyurl.com/y4rgo4v6>

- The **Dunder Mifflin Management Systems** is an app that runs through Node.JS. This app allows a user to add, update, or remove employees, roles, or managers.
- Created this app from scratch, using JavaScript and MySQL. MySQL to seed the database and JavaScript to create prompts(the inquirer) to ask the user questions based on what the user wants to do with the app.

**Day Planner** | Repo: <https://tinyurl.com/ycxok9wf> | App: <https://tinyurl.com/y9dlrng3>

- **Day Planner** is an app that uses HTML5, CSS, and JavaScript to create a working planner for the current day.
- Created this app from scratch, having to use JavaScript, jQuery, and Moment.js to create the working code that allows for the saving and updating of the time and plans throughout the day.

## EXPERIENCE

<b>Math Teacher   Lead Sophomore Math Teacher</b>	2018 – 2020
<b>Oakland High School   Nashville Big Picture High School</b>	Murfreesboro, TN   Nashville, TN

- These two positions required the building/creation of a unique and rigorous curriculum. These positions also required an employee to be a communicative group member, an agile learner, and a modest hard worker.

## EDUCATION

**Full Stack Development Certificate:** Vanderbilt University, Nashville, TN

- A 24-week intensive program focused on gaining technical programming skills to become a Certified Full Stack Developer.

**Bachelor's Degree in Mathematics:** Middle Tennessee State University, Murfreesboro, TN
